Pretty and Practical

The best kitchens and baths—as these spaces prove—are as stylish and luxurious as they

are comfortable and functional. BY PAULA M. BODAH

“This couple hosts family holidays and Sunday night football parties, which called for a large prep area and plenty of storage.” —Paula Daher

GRAND OPENING

Removing an interior wall and eliminating a stand-alone table and chairs opened space to add the counters and cabinets the homeowners wanted to satisfy their passion for cooking. A clever island extension surrounded by wicker chairs and topped with a pretty chandelier lets the family enjoy casual dining with a sense of style. A quiet palette and fool-the-eye tricks like the tall stove backsplash and an inconspicuous hood give the low-ceilinged room the feeling of height. *Photography by Eric Roth*
